• OPTIONS

Control box «Packcontrol»

This option considerably reduces the cables left on the ground. Each equipment can be directly connected to this electrical cabinet, which is attached to the sorter. The box allows you to connect and control:

- 1 grader
- 2 water pumps
- 1 fish pump
- 4 counters.

The front panel switches allow each device to be turned on or turned off separately. Thermal circuit breakers ensure the protection of each piece of equipment. A differential switch protects the operators.
